Re: e-Tysan System (Local Server / Cloud Server Deployment)

1. Modulus of e-Tysan System

Modulus	Descriptions	Qty	Unit Rate	Amount
A	**To develop an on-premises independent electronic web platfrom**			
	- The e-Tysan system should as a data hub to manage and display including the following :	1/sum		$
	Modulus B : Emailing system, redirect to webmail / gmail / other emailing system			
	Modulus C : Project DMS			
	Modulus D : Safety DMS			
	Modulus E : Safety modulus inlcuding e-forms and 4S			
	Modulus F : IMS - Quality modulus including e-forms			
	Modulus G : IMS - Environmental modulus including e-forms			
	Modulus H : QS modulus			
	Modulus I : Procurement modulus			
	Modulus J : Human Resource modulus including training records			
	Modulus K : Plant modulus			
	including			
	- Annual subscription base			
	- System dashboard			
	- Unlimited user / limited user			
	- Multi-projects			
	- Maintenance Service			
	- Setup and implementation service			
			Modulus A Sub-Total :	$
B	**Emailing system : redirect to webmail,/ gmail or other emailing system**			
	B.1 Emailing System: Secure corporate email, spam filtering, integration with intranet.	1/sum		$
	B.2 Localized/Alternative Cloud Storage: Data storage in HO/ Local Provider (To be Proposed)	1/sum		$
	B.3 Regional hosting, 5TB storage	1/sum		$
	B.4 Mobile and desktop access	1/sum		$
	B.5 Secure corporate email accounts	1/sum		$
	B.6 Spam filtering and malware protection	1/sum		$
	B.7 Incoming and Outgoing Email archive/Backup in DMS	1/sum		$
	B.8 Setup and implementation service	1/sum		$
			Modulus B Sub-Total :	$
C	**Project DMS**			
	C.1 Document sharing and version control	1/sum		$
	C.2 Strong for compliance and workflow automation if regulatory requirements are strict.	1/sum		$
	C.3 Seamless integration with email	1/sum		$
	C.4 Seamless integration with laserfiche/NAS	1/sum		$
	C.5 Setup and implementation service	1/sum		$
			Modulus C Sub-Total :	$
D	**Safety DMS**			
	D.1 Document sharing and version control	1		$
	D.2 Strong for compliance and workflow automation if regulatory requirements are strict.	1		$
	D.3 Seamless integration with email	1		$
	D.4 Seamless integration with laserfiche/NAS	1		$
	D.5 Setup and implementation service	1		$
			Modulus D Sub-Total :	$
E	**Safety Modulus**			
	E.1 Seamless integration with email, HR, attendance, internal guideline/ form, site camera	1/sum		$
	E.2 Centralized dashboard for safety monitoring (Expandable)	1/sum		$
	E.3 Digitalized accident reporting, incoperated with HR database	1/sum		$
	E.4 Integration with HR attendance records (biometric or card-based)	1/sum		$
	E.5 Open API to alllow 4S system elements to connect and access to main system	1/sum		$
	E.6 System maintenance and technical support	1/sum		$
	E.7 Setup and implementation service	1/sum		$
			Modulus E Sub-Total :	$
F	**IMS - Quality Modulus**			
	F.1 Document sharing and version control	1/sum		$
	F.2 Strong for compliance and workflow automation if regulatory requirements are strict.	1/sum		$
	F.3 Seamless integration with email	1/sum		$
	F.4 Seamless integration with laserfiche/NAS	1/sum		$
	F.5 Setup and implementation service	1/sum		$
			Modulus F Sub-Total :	$
G	**IMS - Environmental Modulus**			
	G.1 Seamless integration with email, HR, attendance, internal guideline/ form, site camera	1/sum		$
	G.2 Centralized dashboard for Environmental monitoring	1/sum		$
	G.3 System maintenance and technical support	1/sum		$
	G.4 Setup and implementation service	1/sum		$
			Modulus G Sub-Total :	$

Quotation

Date :

Re: **e-Tysan System (Local Server / Cloud Server Deployment)**

H	**QS Modulus**				
	H.1	System integration with Account, Project, Safety, IMS - Quality, IMS - Environmental, Procurement, HR, and Plant modules	1/sum	$	
	H.2	Strong for compliance and workflow automation if regulatory requirements are strict.	1/sum	$	
	H.3	Seamless integration with email	1/sum	$	
	H.4	Dashboards provide clear visibility for senior management (Cost review)	1/sum	$	*
	H.5	Digital platforms streamline communication with contractors	1/sum	$	*
	H.6	Setup user right for "QS Modulus" for H.2, H.3, H.4, H.5	1/sum	$	*
	H.7	Digital contracts: Use e-signatures and centralized contract repositories	1/sum	$	*
	H.8	Invoice "散單" automation: Implement three-way matching (PO/approved quotation, approved site record, invoice)	1/sum	$	*
	H.9	Digital platforms for subcontractor payment	1/sum	$	
	H.10	Subcontractor onboarding: Self-service portals for compliance documents and certifications	1/sum	$	*
	H.11	Setup and implementation service	1/sum	$	
	Remarks :	the pricing of modulus I incorporates the symbol " * " as follows: H.4 corresponds to I.3, H.5 to I.1, H.6 to I.2, H.7 to I.5, H.8 to I.6, H.10 to I.7.			
				Modulus H Sub-Total :	$
I	**Procurement Modulus**				
	I.1	Digital platforms streamline communication with contractors and material suppliers	1/sum	$	
	I.2	Real-time tracking of materials reduces delays caused by supply chain disruptions	1/sum	$	
	I.3	Dashboards provide clear visibility for senior management and clients	1/sum	$	
	I.4	E-procurement workflows: Automate purchase requisitions, approvals, and purchase orders	1/sum	$	
	I.5	Digital contracts: Use e-signatures and centralized contract repositories	1/sum	$	
	I.6	Invoice automation: Implement three-way matching (PO, delivery note, invoice)	1/sum	$	
	I.7	Supplier onboarding: Self-service portals for compliance documents and certifications	1/sum	$	
	I.8	Dashboards: Provide real-time visibility for site engineers and senior management	1/sum	$	
	I.9	Setup and implementation service	1/sum	$	
	Remarks :	the following relationships shall be noted (I.3 corresponds to H.4, I.1 to H.5, I.2 to H.6, I.5 to H.7, I.6 to H.8, I.7 to H.10).			
				Modulus I Sub-Total :	$
J	**Human Resource Modulus**				
	J.1	System integration with Account, Project, Safety, IMS - Quality, IMS - Environmental, QS, Procurement, and Plant modules	1/sum	$	
	J.2	Strong for compliance and workflow automation, including Payroll and Leave record, if regulatory requirements are strict.	1/sum	$	
	J.3	Customize and compliance with internal guideline and data foundation	1/sum	$	
	J.4	Mobile apps for surveys, recognition platforms, and social collaboration tools	1/sum	$	
	J.5	AI-powered applicant tracking systems, and digital onboarding portals.	1/sum	$	
	J.6	Setup and implementation service	1/sum	$	
				Modulus J Sub-Total :	$
K	**Plant Modulus**				
	K.1	Seamless integration with email, HR, attendance, internal guideline/ form, 4S, site camera	1/sum	$	
	K.2	Centralized dashboard for safety monitoring	1/sum	$	
	K.3	Automated incident reporting & alerts, CCTV	1/sum	$	
	K.4	Integration with HR attendance records (biometric or card-based) for Plant	1/sum	$	
	K.5	Compliance with Development Bureau 4S requirements	1/sum	$	
	K.6	System maintenance and technical support	1/sum	$	
	K.7	Setup and implementation service	1/sum	$	
				Modulus K Sub-Total :	$
				TOTAL AMOUNT FOR MODULUS A TO K :	**$**

2. **Options**

Item	Descriptions	Qty	Unit Rate	Amount
AM1	Annual system maintenance fee	1/ year	per modulus	$

3. **Tender Terms and Conditions**

3.1 to 3.12 of Tender Terms and Conditions

4. **Duration for the System Establishment**

4.1 6 months

5. **Validation Period**

5.1 The vendor agrees to adhere to the terms of this tender for a duration of 6 months from the designated date set for its submission. It shall retain its enforceability and may be accepted at any point before the conclusion of this time frame.

6. **All currency in HKD**

6.1	Payment schedule	Description
6.1.1	5%	Upon approval of Vendor's Technical Proposal (approved by Tysan)
6.1.2	20% (subject to Each Modulus)	Upon approval of Head of Department for each Modulus (approved by Tysan)
6.1.3	15%	Upon approval of first trip run (approved by Tysan)
6.1.4	15%	Upon approval of second trip run (approved by Tysan)
6.1.5	20%	Upon approval of third trip run (approved by Tysan)
6.1.6	25%	Upon completion of work/service (approved by Tysan)
6.2	From date of completion of the above 5.1.6	Annual system maintenance fee (monthly payment)

For and on behalf of

Accepted by
Tysan Foundation Limited

Tender Terms and Conditions of e-Tysan System (Local Server / Cloud Server Deployment)

3.1 Ownership of Proposals

All submissions shall become the property of **Tysan** upon submission.

3.2 Cancellation Rights

Tysan reserves the right to cancel the tender at its sole discretion without providing any explanation.

3.3 Jurisdiction

The governing law for this agreement shall be the laws of **Hong Kong SAR**.

3.4 Mandatory Briefing Meeting

A mandatory briefing meeting regarding the details of the Modulus shall be convened at **2:00 PM on 15 January 2026 (To be confirmed)**.

3.5 Inclusive Unit Rates

The unit rates quoted by the Vendor shall be deemed inclusive of the following costs:

- 3.5.1 Vendor's technical leader, technical engineer, and project manager.
- 3.5.2 Vendor's team attendance at weekly meetings.
- 3.5.3 Provision of hardcopy and softcopy records/reports in compliance with the Vendor's Technical Proposal.
- 3.5.4 Costs of labor, overtime, idling, and all necessary plant/equipment.
- 3.5.5 Insurance coverage for plant and equipment owned or hired by the Vendor.
- 3.5.6 Computer equipment, including spare parts, consumables, software licenses, etc., deployed for the work/services.

3.6 Ownership of Assets

Upon completion of the work/services, ownership of all copyright, software, and hardware shall vest in **Tysan**.

Tender Terms and Conditions of e-Tysan System (Local Server / Cloud Server Deployment)

3.7 Confidentiality Obligations

- 3.7.1 Vendors shall not disclose tender information to any third party without prior written consent from Tysan.
- 3.7.2 Any breach of confidentiality shall result in immediate disqualification and may give rise to legal proceedings.

3.8 Pre-Contract Obligations

- 3.8.1 A Confidentiality Agreement (CA) must be executed prior to contract award.
- 3.8.2 The CA template shall be provided by Tysan post-tender.

3.9 Tender Submission Requirements

Vendors shall submit the following:

- 3.9.1 Tender return format: PDF, editable Excel (costs), and signed/stamped hardcopy of the quotation form.
- 3.9.2 Technical Proposal including:
    - System architecture
    - Deployment schedule (Gantt chart)
    - Data migration plan
- 3.9.3 Certified copy of Hong Kong Business Registration Certificate.
- 3.9.4 Three similar project references (2022–present).
- 3.9.5 ISO 27001 or equivalent certification.
- 3.9.6 Vendor’s company profile.
- 3.9.7 List of hardware/cloud requirements for local server or Amazon/Microsoft/other cloud server (to be provided by Tysan).
- 3.9.8 List of software requirements (to be provided by Tysan).
- 3.9.9 Vendor’s advice on the physical size of the local server to suit the system (server to be provided by Tysan).
- 3.9.10 Vendors are reminded to submit their Technical Proposal and Organization Chart as part of their tender submission. The Technical Proposal shall include all separate modulus with separated cost proposals for each modulus.

Tender Terms and Conditions of e-Tysan System (Local Server / Cloud Server Deployment)

3.10 Additional Vendor Obligations

Vendors shall also include the following in their tender submissions:

- **3.10.1 Data Migration for Past Projects**
  Vendors must provide a migration plan covering at least **30 past projects** or **2 years of historical data**.
- **3.10.2 Training Program (approx. 350ppl)**
  A comprehensive training program for end-users and administrators must be proposed, including training materials and schedules.
- **3.10.3 Program for System Establishment (within 6 months)**
  Vendors shall outline a structured program (within 6 months) for system establishment, covering installation, configuration, and stabilization phases.
- **3.10.4 Modulus Deployment Program**
  A detailed deployment program for each modulus must be submitted, with separated cost proposals.
- **3.10.5 Maintenance Fee**
  Vendors shall specify annual maintenance fees, including scope of coverage (software updates, bug fixes, technical support).
- **3.10.6 Rights to Update Quotation Requirements**
  Tysan reserves the right to update or amend quotation requirements at any stage of the tender process. Vendors may propose alternative requirements for each set of modulus for Tysan's consideration.
-

3.11 Tender Deadline

- 3.11.1 Deadline: **30 January 2026, 3:00 PM (HKT)**.
- 3.11.2 Your quotation with all technical proposal shall be submitted to our office via email accounts (quotation@tysan.com , kennethhong@tysan.com & sparktang@tysan.com).
- 3.11.3 Late submissions shall be automatically rejected.

3.12 Contact Information

For queries, please contact **Mr. Kenneth Hong** at **9092 5065**.

Tender Terms and Conditions of e-Tysan System (Local Server / Cloud Server Deployment)

Vendor Compliance Checklist

Section	Requirement	Submitted (✓)	Notes
3.9.1	Tender return format: PDF, editable Excel (costs), and signed/stamped hardcopy of quotation form		
3.9.2	Technical Proposal including: System architecture, Deployment schedule (Gantt chart), Data migration plan (Please stated the submitted Modulus in Notes)		
3.9.3	Certified copy of Hong Kong Business Registration Certificate		
3.9.4	Three similar project references (2022–present)		
3.9.5	ISO 27001 or equivalent certification		
3.9.6	Vendor's company profile		
3.9.7	List of hardware/cloud requirements for local server or Amazon/Microsoft/other cloud server (to be provided by Tysan)		
3.9.8	List of software requirements (to be provided by Tysan)		
3.9.9	Vendor's advice on the physical size of the local server to suit the system (server to be provided by Tysan)		
3.9.10	Technical Proposal and Organization Chart, including all separate modulus with separated cost proposals for each modulus		
3.10.2	Training Program (approx. 350ppl)		
3.10.3	Program for System Establishment (within 6 months)		
3.10.4	Modulus Deployment Program
